JAYAPRAKASH M

Computer Science Engineering Student | Aspiring Software / Data Analyst

Kanniyakumari, Tamil Nadu, India | mprakash102006@gmail.com | +91 9342465277 | github.com/JayaprakashM-jpg |

PROFILE SUMMARY

Final-year B.E. Computer Science and Engineering student with hands-on experience building end-to-end applications spanning machine learning, web development, and data analytics. Completed a remote Data Analyst internship at IBM Adroit Technologies and independently developed ShieldAI, a full-stack AI-based malware detection system. Strong foundation in Python, Java, SQL, and JavaScript, with a track record of state-level recognition in hackathons. Seeking an entry-level Software Engineer / Data Analyst role to apply and grow these skills.

TECHNICAL SKILLS

Languages: Python, Java, SQL, JavaScript

Web & Frameworks: Flask, HTML5, CSS3, Chart.js

Data & ML: Random Forest, XGBoost, Neural Networks, Pandas, scikit-learn

Tools & Platforms: Git, GitHub, SQLite, DevOps Fundamentals

Core Concepts: Data Structures & Algorithms, DBMS, OOP, REST APIs

EXPERIENCE

Data Analyst Intern (Remote) 2025

- Performed data cleaning, exploratory analysis, and visualization to support business insights and reporting.
- Collaborated remotely using industry-standard analytics tools and workflows within a live project environment.

PROJECTS

ShieldAI — AI-Based Malware Detection System 2025 – 2026

- Built a full-stack Flask web application with a trained ML pipeline comparing Random Forest, XGBoost, and Neural Network models, auto-selecting the best performer by F1 score.
- Designed a cybersecurity-themed UI with an analytics dashboard (Chart.js), four-level threat rating, and batch scanning for up to 20 files at once.
- Implemented user authentication with OTP-based email verification (Gmail SMTP) and automated PDF report generation using fpdf2.
- Authored a complete 48-page academic project report following Anna University submission standards.

Front-End Mini Projects | *Personal Projects* 2024 – 2025

- Habit Tracker, Real-Time Stock Ticker, EHub, and Simple Bill — a set of interactive front-end applications built with HTML, CSS, and JavaScript, focused on clean UI and practical functionality.

CERTIFICATIONS & ACHIEVEMENTS

- State-Level Recognition — Naan Mudhalvan Hackathon (IBM), Front-End Technologies track.
- Data Analytics Certification — IBM.
- DevOps Fundamentals Certification — Infosys Springboard.

EDUCATION

B.E. Computer Science and Engineering | *University College of Engineering, Nagercoil* Expected 2027

Anna University — Regulation 2021 curriculum
